

Safety Data Sheet

1 Identification of the substance or mixture and of the company/undertaking

1.1 Product identification

Product name : BELPO LEATHER GREASE.
UFI number : Y300-N083-E000-GQ46

1.2 Relevant identified use of the substance or mixture and advised against use

Relevant identified use : Leather maintenance.
Use advised against : No data available.

1.3 Details regarding the supplier of the safety data sheet

Supplier : Name: Belpo Leather Care
Street: Zuidbroek 46
Postal code/Place: 9030 Ghent
Country: Belgium
Phone: +32487179686
Website: www.belpoleathercare.com
E-mail: Belpo@belpoleathercare.com

1.4 Emergency phone number

Belgium:
+32 070 245 245.

2 Identification of hazards

2.1 Classification of the substance or mixture

Classification of the mixture according to CLP (1272/2008/EC)

Identification of hazards:

H317 Skin Sens. 1 May cause an allergic skin reaction.

2.2 Labeling elements

Labeling elements according to the CLP regulation ((EC) no. 1272/2008)

Labeling

Hazard pictograms

Signal word

Warning

Hazard statements

H317 May cause an allergic skin reaction.

Additional hazard information (EU)

EUH208 Conta nce>. May cause an allergic reaction.

Safety recommendations - Prevention

P280 Wear protective gloves/protective clothing/eye protection/face protection.
P272 Contaminated work clothing should not leave the work area.

P261 Avoid inhalation of dust/smoke/gas/mist/vapour/aerosol.

Safety recommendations - Response

P321 Specific treatment required (see ... on this label).
P302+P352 IN CASE OF CONTACT WITH SKIN: wash with plenty of water/...
P333+P313 In case of skin irritation or rash: consult a physician.

Safety recommendations - Disposal

P501 Dispose of contents/container to ...

Contains

Rosin

2.3 Other hazards

According to Regulation (EU) 1907/2006, no substances have been assessed as PBT or vPvB.
According to Regulation (EU) 2017/2100 or Regulation (EU) 2018/605, no substances are known with hormone-disrupting properties.

3 Composition and information on ingredients

3.2 Mixtures

According to product knowledge, no nanomaterials have been identified.
The mixture does not contain substances identified as Substances of Very High Concern (SVHC) by the European Chemicals Agency (ECHA) under Article 57 of REACH: <http://echa.europa.eu/fr/candidate-list-table>.

Substance:	Concentration (%)	Specific concentration limits zen	Classification
Rosin			
CAS No.	8050-09-7	☐ 10.0%	H317 Skin Sens. 1
EC No.	232-475-7		
IDX No.	650-015-00-7		

Note

Full text of the phrases and H- EUH-: see chapter 16.

4 First aid measures

4.1 Description of first aid measures

General information:

In case of accident or if you feel unwell, seek medical advice immediately (show if possible the instructions for use or the safety data sheet).

Do not leave the victim unattended.

Remove the victim from the danger zone.

Keep the victim warm, quiet, and covered.

After inhalation:

Move the person to fresh air and ensure they can breathe easily.

After contact with skin:

Immediately remove contaminated, soaked clothing.

Immediately wash with plenty of water and soap after contact with skin.

Remove contaminated clothing.

In case of skin reactions, consult a physician.

Wash with soap and water.

After contact with eyes:

In case of eye irritation, consult an eye doctor.

Rinse cautiously and thoroughly with eye wash or water immediately.

After ingestion:

Never give anything by mouth to an unconscious person or a person with convulsions.

IF SWALLOWED: rinse mouth.

DO NOT induce vomiting.

Self-protection in first aid:

Eerstehulpverlener: let op zelfbescherming!.

4.2 **Main acute and delayed symptoms and effects**

The main known symptoms and effects are described in the labeling (see section 2.2) and/or in chapter 11.

4.3 **Mention of the required immediate medical care and special treatment**

Notes for the physician:

Treat symptomatically.

5 **Firefighting measures**

5.1 **Extinguishing agents**

Suitable extinguishing agents:

Foam.

Dry powder.

Carbon dioxide (CO₂).

Sand.

Unsuitable extinguishing agents:

Strong water jet.

5.2 **Special hazards caused by the substance or mixture**

The formation of toxic gases is possible when heated or in case of fire.

5.3 **Advice for firefighters**

Wear independent breathing apparatus and chemical protective clothing.

Additional Information

Do not inhale vapors and smoke.

Coordinate firefighting measures in the vicinity of the fire.

Remove undamaged packaging from the immediate danger zone if this can be done safely.

Be cautious when applying carbon dioxide in confined spaces. Carbon dioxide can displace oxygen.

Use water mist jets to protect personnel and cool containers at risk.

Collect contaminated firefighting water separately. Do not allow it to enter the sewer or surface water.

6 **Measures in case of accidental release of the substance or mixture**

6.1 **Personal precautions, protective equipment and emergency procedures**

Use personal protective equipment.

Ensure the safety of individuals.

Use suitable respiratory protection.

Ensure adequate ventilation.

6.2 **Environmental precautions**

Ensure that waste is collected and stored.

When gas is released or enters waterways, soil, or sewage, the responsible authorities must

will be informed.

No special environmental measures are necessary.

6.3 **Containment and cleaning methods and materials**

Handle the recovered material as prescribed in the chapter on waste disposal.

Collect in closed and suitable containers for disposal.

Thoroughly clean contaminated objects and areas in accordance with environmental regulations.

6.4 **Reference to other sections**

Safe handling: see chapter 7.

Waste disposal: see section 13.

Personal protective equipment: see chapter 8.

Additional Information

Not available

7 Handling and storage

7.1 **Precautions for safe handling of the substance or mixture**

Protective measures:

Avoid contact with skin, eyes, and clothing.

Wear personal protective clothing (see chapter 8).

Sewers and pipes must be protected from the ingress of the product.

Do not put product-soaked rags in your pockets.

Use only in well-ventilated areas.

If local exhaust is not possible or not sufficient, the entire work area must be ventilated by technical means.

Ensure adequate ventilation, as well as local exhaust at critical locations.

Dust must be extracted directly at the point of origin.

Avoid inhaling dust.

Advice on general occupational hygiene:

Wash hands before each work break and after work.

Street clothes should be stored separately from work clothes.

Wash contaminated clothing before reusing it.

Remove contaminated, soaked clothing immediately.

Work in well-ventilated areas or with respiratory protection.

Remove contaminated, soaked clothing.

7.2 **Conditions for safe storage, including incompatible products**

Keep the container tightly closed in a dry, cool, and well-ventilated place.

Keep the container upright to prevent leakage.

Requirements for storage areas and containers:

Ensure adequate ventilation of the storage area.

Instructions for joint storage:

Store away from food, beverages, and animal feed.

7.3 **Specific end use**

Apart from the use mentioned in paragraph 1.2, no other specific applications are stipulated.

8 Measures to control exposure/personal protection

8.1 **Control parameters**

Limit values for occupational exposure:

Not available

Biological limit values:

Not available

Exposure limits for intended use:

Not available

Note:

Not available

8.2 Measures to control exposure

Appropriate technical measures:

Technical measures and the application of suitable work processes take precedence over personal protective equipment.

Ensure adequate ventilation, as well as local extraction at critical locations.

Individual protective measures, such as personal protective equipment:

Eye/face protection

: Suitable eye protection:
No data available.

Skin protection

: Hand protection:
Suitable glove type:
Wear protective gloves.
Additional hand protection measures:
Do not wear gloves near machines and rotating tools.
Use gloves only once.

Note:

When handling chemicals, protective gloves with the CE label, including the four control digits, must be worn.

The quality of the protective chemical-resistant gloves must be chosen depending on the specific concentration and amount of hazardous substances in the workplace.

For special purposes, it is advisable to check the resistance of the above-mentioned protective gloves against chemicals and the **supplier of these gloves.**

Take into account breakthrough times and swelling properties of the material.

Body protection:

Suitable protective clothing:

Lab coat.

Respiratory protection

: Respiratory protection is necessary when:
If technical extraction or ventilation measures are not possible or insufficient, respiratory protection must be worn.

Suitable respiratory equipment:

Wear respiratory protection.

Note:

The filter class must be suitable for the maximum concentrations of the contamination (gas/vapor/aerosol/particles) that may occur when handling the product. If the concentration is exceeded, a breathing apparatus must be used.

Observe wear time limits as specified by the manufacturer.

Use only respiratory equipment with CE symbol including the four-digit test number.

Control of environmental exposure:

Not available

Control measures for consumer exposure:

Not available

Additional Information

Not available

9 Physical and chemical properties

9.1 Information on physical and chemical basic properties

Physical state	: Solid
Color	: Not available
Odor	: Not available
Odor threshold	: Not available
pH	: Not available
Melting/Freezing point	: Not available
Boiling point	: 130
Flash point	: Not available
Evaporation rate	: Not available
Flammability	: Not available
Lower flammability limit or explosiveness	: Not available
Vapor pressure	: Not available
Vapor density	: Not available
Relative density	: Not available
Water solubility	: Not available
Partition coefficient, n-octanol/water (log Pow)	: Not available
Auto-ignition temperature	: Not available
Decomposition temperature	: Not available
Viscosity	: Not available
Explosive properties	: Not available
Oxidizing properties	: Not available
Solubility in other solvents	: Not available
Particle characteristics	: Not available

9.2 Other safety information

Information on classes of physical hazards

Not available

Other safety characteristics

Not available

10 Stability and reactivity

10.1 Reactivity

No data available.

10.2 Chemical stability

The product is stable when stored at normal ambient temperatures.

10.3 Possible hazardous reactions

No dangerous reaction when handled and stored under the recommended conditions.

10.4 Conditions to avoid

No data available.

10.5 Materials that are chemically interacting

No data available.

10.6 Dangerous decomposition products

Does not decompose when used for the intended use.

Additional Information

Not available

11 Toxicological information

11.1 Information on hazard classes as defined in Regulation (EC) No. 1272/2008

Acute oral toxicity:

The product is not classified.

Mixture data:

Not available

Substances:

Not available

Acute dermal toxicity:

The product is not classified.

Mixture data:

Not available

Substances:

Not available

Acute inhalation toxicity:

The product is not classified.

Mixture data:

Not available

Substances:

Not available

Skin corrosion/irritation:

The product is not classified.

Mixture data:

Not available

Substances:

Not available

Serious eye damage/eye irritation:

The product is not classified.

Mixture data:

Not available

Substances:

Not available

Skin sensitization:

The product is classified Skin Sens. 1 according to the regulation referred to.

May cause an allergic skin reaction.

Mixture data:

Not available

Substances:

Not available

Specific target organ toxicity (repeated exposure):

The product is not classified.

Mixture data:

Not available

Substances:

Not available

Specific target organ toxicity (single exposure):

The product is not classified.

Mixture data:

Not available

Substances:

Not available

Carcinogenicity:

The product is not classified.

Mixture data:

Not available

Substances:

Not available

Reproductive toxicity:

The product is not classified.

Mixture data:

Not available

Substances:

Not available

Germ cell mutagenicity:

The product is not classified.

Mixture data:

Not available

Substances:

Not available

Respiratory sensitization:

The product is not classified.

Mixture data:

Not available

Substances:

Not available

Additional Information:

Not available

11.2 Information on other hazards

Endocrine disrupting properties:

According to Regulation (EU) 2017/2100 or Regulation (EU) 2018/605, there are no substances known with hormone disrupting properties.

12 Ecological information

12.1 Toxicity

Based on the available data, it does not meet the classification criteria.

Mixture data:

Not available

Substances:

Not available

12.2 Persistence and degradability

The product has not been tested.

Composition data:

Not available

Substances:

Not available

12.3 Bioaccumulation

The product has not been tested.

Composition data:

Not available

Substances:

Not available

12.4 Mobility in soil

The product has not been tested.

Composition data:

Not available

Substances:

Not available

12.5 Results of PBT and vPvB assessment

According to Regulation (EU) 1907/2006, no substances have been assessed as PBT or vPvB.

12.6 Endocrine disrupting properties

According to Regulation (EU) 2017/2100 or Regulation (EU) 2018/605, no substances are known with hormone-disrupting properties.

12.7 Other harmful effects

Not available

Additional ecotoxicological information

Not available

13 Instructions for disposal

13.1 Waste treatment methods

Disposal of product/packaging:

Waste codes/identification of waste materials according to the EWC/AVV:

The assignment of waste identity numbers/waste descriptions must be carried out according to the EEC, appropriate to the industry and the process.

Waste treatment options:

Appropriate disposal/Product:

Waste requiring special supervision.

Dispose of the waste according to applicable legislation.

Delivery to a recognized waste processor.

Appropriate disposal/Package:

Non-contaminated packaging must be recycled or disposed of.

Contaminated packaging must be completely emptied and can be reused after proper cleaning.

Packaging that cannot be properly cleaned must be disposed of.

Handle contaminated packages in the same way as the substance itself.
Dispose of the waste according to applicable legislation.

Note:

For recycling, contact must be made with the manufacturer.

Collect the waste separately.

Consult the competent authorities regarding the disposal of waste materials.

Do not mix with other waste materials.

The waste must be kept separate from other types of waste until its disposal.

Regarding the waste, it must be checked whether a transport permit is required.

14 Information regarding transport

14.1 UN number

Not available

14.2 Proper shipping name according to UN model regulations

Not available

14.3 Transport hazard class(es)

Not available

14.4 Packaging group

Not available

14.5 Environmental hazards

Not available

14.6 Special precautions for the user

Not available

14.7 Bulk transport according to IMO instruments

Not available

15 Regulations

15.1 Specific safety, health, and environmental regulations and legislation for the substance or the mixture

This SDS is prepared in accordance with the REACH regulation, including the amendments: REACH regulation (EC) No. 1907/2006.

This SDS is prepared in accordance with the CLP regulation, including the amendments: CLP regulation EC No. 1272/2008.

15.2 Chemical safety assessment

No chemical safety assessment has been carried out for this substance/mixture by the supplier.

Additional Information

Not available

16 Other information

Mention of changes

Not applicable (first edition of the safety data sheet).

Abbreviations and acronyms

CAS no.: Chemical Abstracts Service.

IATA: International Air Transport Association.

IMDG: International Maritime Dangerous Goods Code.

RGP: Directive on Dangerous Preparations.

UN number: United Nations number.

EC no.: European Community.

ADN/ADNR: Regulations concerning the transport of dangerous goods in vessels on the waterways.

ADR/RID: European agreement concerning the international transport of dangerous goods by road.
road/Regulations concerning the international transport of dangerous goods by rail.

CLP: classification, labeling and packaging.

PBT: very persistent and very bioaccumulative substances.

Important literature references and data sources

No data available.

The classification of the mixture is in accordance with the evaluation method described in HazCom 2012

Classification of the mixture is in accordance with the evaluation method described in Regulation (EC) No 1272/2008.
Complies with ATP 14, Regulation (EU) No. 2020/217.

The classification of the mixture is in accordance with the evaluation method described in the GHS.
evaluation method

H317 Skin Sens. 1

May cause an allergic skin reaction.

Training advice

Refer to sections 4, 5, 6, 7, and 8 of this safety data sheet.

Additional Information

Date created: 20/03/2023

version Date: 20/03/2023

Printing Date: 20/03/2023

This data is based on our current knowledge. However, it does not guarantee product properties and does not establish a contractual legal relationship. By using appropriate industrial safety measures, it is of the utmost importance to ensure that the relevant exposure measures in the workplace are taken and negative effects on health are prevented.
